

8. Country Walks

If you have always lived in the country, you probably have received specialized instruction in the modifications to the principles of Guide Dog work which these conditions demand. However, if you move from town to country at any time after training with your dog, you are faced with an environment that is possibly confusing to your dog and dangerous to you both.

For this reason, it is important to seek advice and assistance in the form of aftercare from GDTx if this need should ever arise.
